Sale of quinine by Shanbhogs & Patels

FILE No. 97 of 1904-05.
Sale of quinine by Shanbhogs and Patels.

From the Senior Surgeon and Sanitary Commissioner, No. 804, dated the 27th May 1905.
Requests the favor of early sanction of the Government of Madras being obtained for the supply of five-grain quinine powders at two pice each for sale in the Mysore State (with two enclosures).

4 To the First Assistant to the Hon'ble the Resident in Mysore, No. Pol. 18, dated the 6th July 1905.
Requests that the Government of Madras may be moved to supply this State with five grain quinine powders at two pice per powder.

5 From the First Assistant to the Hon'ble the Resident in Mysore, No. 4688 (Pol. 269, dated 22nd August 1905), dated the 22nd August 1905.
States that the Government of Madras who were addressed on the subject have urged that the sale of five grain quinine powders at two pice per powder is contrary to the wishes of the Government of India who have, in Home Department Resolution No. 1197-1209, dated 21st October 1903, prescribed a uniform weight and price of seven grains for a pice for sale of quinine all over India; and requests the reconsideration of the proposal by the Durbar.

6 To the Senior Surgeon, No. 2980, dated the 16th September 1905.

and the Senior Surgeon requested to submit a report of the result thereof at the end of that period. With reference to the above order, the Senior Surgeon, in October, 1904, wrote to Govt, saying that the experiment sanctioned was not likely to succeed, and suggested the supply of quinine in packets to Shanbogs and Patels living in villages beyond 3 miles of any Dispensary in the four most Malarial districts of Kadur, Shimoga, Hassan and Mysore, for free distribution among the poor ryots. In response to that Communication, the Senior Surgeon was requested to try the experiment which had been already sanctd on his recommendation in the order of the 3rd. August 1904. As regards his suggestion for a free distribution of quinine among the poor ryots of the said 4 Malarial districts, he

2. On a reference made by the Senior Surgeon, the Director of Cinchona Plantations, Nedgiris, has stated that as 7 grain-Quinine powders were supplied to all the British Post Offices in the Mysore State for sale at 3 pies each from the 1st February, 1905, he could with no difficulty supply the Senior Surgeon with those ~~seven~~ powders, but that if 5 grain powders are preferred for sale at 2 pies, a reference on the subject should be made to the Govt of Madras

3. The Senior Surgeon considers 7 grains of Quinine insufficient for an adult and too much for a child, and prefers 5 grain packets, so that two may be taken by an adult and one by a child. He also states that it is

advantageous to procure 5 grain powders at 2 pies each from the Nilgiris, as there will be a profit of 1 ½ pie to Govt on every powder, and the cost of making the same 5 grain powder at the Medical Stores Comes to 2 ¼ pies. He therefore desires that a reference be made to the Madras Govt and their sanction obtained to set to obtain 5 grain powders at 2 pies each from the Director of Cinchona Plantations for sale in the State through the agency of Village Shanbogs and Patels
